Digi-Key Electronics has adopted this Anti-Counterfeit Policy to preclude introduction of counterfeit product into our supply chain through strict avoidance, mitigation, and disposition processes.

To support this policy of ensuring that there is a low risk of counterfeit products entering our supply chain, Digi-Key uses processes to guarantee purchases are only made directly from the manufacturer or manufacturer approved sources thereby ensuring that product is new, authentic, and fully warrantable under the direct supplier and that accurate up-to-date technical information is readily available. Digi-Key also has controls for Disposition, Inventory Control, Receiving, and Customer Returns verification developed to adhere to the AS6496 counterfeit avoidance and mitigation certification.

If suspect or confirmed counterfeit product is identified, Digi-Key shall quarantine the product and report the findings to the supplier, relevant customers, and appropriate authorities. This policy shall be communicated, understood, implemented, and maintained at all levels of the Organization.

A handwritten signature in black ink that reads "Dave Doherty".

Dave Doherty
President/Chief Operating Officer
Digi-Key Electronics
